Tartus, Syria

SUMMARY

Full-Stack Developer and Information Technology student specializing in React, Django, and data-driven applications. Experienced in building modern web platforms, REST APIs, dashboards, and analytics solutions with a strong focus on clean architecture, performance, and user experience. Developed production-ready applications including marketplaces, management systems, and intelligence dashboards using Python, React, and data analysis tools.

KEY ACHIEVEMENTS

Meta Front-End & Back-End Developer Professional Certificate

Completed Meta Front-End & Back-End Developer Professional Certificate (Coursera)

Duolingo English Test

score: 125/160 (B2/C1)

Private Tutor

Tutoring students in algorithms, data structures, and programming, helping their coding skills algorithms and logic.

Syrian Scientific Olympiad - Informatics

Certificate of Appreciation for national-level excellence in algorithms and logic.

EXPERIENCE

Private Programming & Algorithms Tutor

Self employed

08/2025 - Present

Tartus

As a Private Programming & Algorithms Tutor, I delivered comprehensive instruction in algorithms, data structures, and C++ fundamentals to more than 15 students of various proficiency levels. I architected custom problem sets and practical coding exercises designed to sharpen students' logical reasoning and algorithmic problem-solving capabilities. Furthermore, I consistently provided structured feedback and monitored student progress, which resulted in a measurable 20-30% improvement in their coding test performance.

- Mentored 15+ students in algorithms and programming.
- Helped students improve coding test scores by 20–30%

Freelance Full-Stack Developer

Self Employed

12/2025 - Present

Remote

Designed and developed full-stack web applications using React, Django, and REST APIs, Covering authentication, database design, dashboards, and responsive user interfaces. Built data visualization dashboards using Python, Pandas, Streamlit, and Recharts. Managed deployment using Vercel and Render.

- Delivered 3+ freelance web projects to clients
- Increased project performance and responsiveness by 25%

Humanitarian Volunteering

Brücken der Hoffnung (Bridges of Hope)

03/2025 - 05/2025

Tartus & Latakia

With **Brücken der Hoffnung**, I organized and distributed essential food baskets to underprivileged families in the Syrian coastal region. I ensured efficient aid delivery while demonstrating strong teamwork and social responsibility in high-pressure environments

- Reached +500 Families

LANGUAGES

Arabic (Native)

English
Proficient

German
Intermediate

CORE COMPETENCIES

Teaching and Soft Skills

Adapt teaching to student’s level, Analytical Thinking, Clear Communication, Time Management, Critical Thinking.

Technical Skills

Frontend

React.js, JavaScript (ES6+), HTML5, CSS3, Responsive Design, Framer Motion, Recharts, SwiperJS

Backend

Python, Django, Django REST Framework, REST APIs, JWT Authentication

Data & Analytics

Pandas, NumPy, Scikit-learn, Streamlit, Data Visualization, Data Analysis

Database

MySQL

Tools & Deployment

Git, GitHub, Vercel, Render

Programming

C++ (OOP), Java

Projects

- Food Delivery Intelligence Platform**
Python, React, Pandas, Scikit-learn
 - Built an end-to-end analytics platform for restaurant operations.
 - Implemented KPI dashboards, customer analysis, delivery performance tracking, and machine learning models for delay prediction.
- Dawwerha - Full-Stack Marketplace**
React, Django REST Framework
 - Developed marketplace with JWT authentication and protected routes
 - Implemented image uploads and admin moderation system
 - Built fully responsive RTL Arabic interface
- Taxi Demand Intelligence**
Python, Streamlit, Pandas
 - A data intelligence dashboard built with Streamlit to analyze taxi demand from WhatsApp request logs. Provides real-time insights including geospatial heatmaps and anomaly detection.
- VAGABOND Luxury Travel**
React, Vite, Framer Motion
 - Developed a premium travel experience featuring cinematic animations, interactive galleries, and modern responsive design.
- Sukoon Medical Center - Management System**
React, Django
 - Built system for managing patients, doctors, HR, and appointments
 - Added doctor evaluation system and role-based functionality
- Daily Score - Personal Tracking App**
React
 - Created local-first app tracking mood, habits, and finances
 - Implemented data visualization and CSV export

EDUCATION

Bachelor’s Degree in Information Technology | EQF Level 6

Latakia University, Latakia, Syria

📅 10/2024 - Present

Relevant Courses

Algorithms, Data Structures, Database Systems, Software Engineering
